VICTORIA WATER WORKS

JADER AUTHORITY OF THE COR-poration of Victoria Water Works Act, 1873, and Municipal By Law authorizing the construction of ater Works for the City of Victoria, 1873,

Applications will be received at the office of the under-signed until the 21ts day of July, for the second issue of Water Works Debentures, and should application be made for more in amount than the issue authorized by the Act, they will be distributed pro rata.

The Debentures will be issued at par, as follows, vis.: ...On 15th MAY, 1873;On 1st AUGUST, 1873.

ayable in twenty-five years from date thereof. The Corporation of the City of Victoria having the right to repurchase from time to time, the said Debentures for the purpose of withdrawing the same from the market, the numbers of the Debentures so to be reparchased, shall be decided by ballot, of which one month's notice shall be given, by publication in the Government Gazette, or in one or more of the local newspapers. The Debentures will bear interest at the rate of seven percent, per annum, payable half yearly, and coupons will be attached to each Debenture for said interest, which shall be paid on presentation as they become due.

The security offered for repayment of Debentures is as oflows, viz.:—

A preferential lien will be given on all works to be erected; also upon the land and other property acquired for Water Works purposes, and on the revenue, amounting to about \$50,000 per annum, which the Copporation have the power to raise under the Municipality Act, 1872, and the Municipality Act Amendment Act, 1873, the Road Ordinance, 1869, and the Road Amendment Ordinance, 1870. Ample security is thus given to those wishing to invest in Debentures.

A deposit of Ten per cent, on the amount of Debentures applied for, will require to be paid into the Bank of British North America to the credit of the Water Works account, a receipt for said deposit to accompany the application, and on the Debentures being issued, they will be placed in the said Bank, and handed over to the party who presents the Water Commissioner's certificate of his being entitled to receive the said Debentures, on his paying the full equivalent as mentioned in said certificate, and in the event of the Debentures not being fully paid for on the day of issue above mentioned, the deposit of Ten per cent, shall be forfeited to the use of the Water Commissioner for Water Works Mr. F. Particulars of the Double Murder on San Juan Island.

A SICKENING SCENE!

EDITOR STANDARD :- You have no doubt ublished the main facts of the deuble murder which was committed on this Island on last Thursday, May 15th, wherein Mr. James Dwyer and his wife were murdered by some unknown assassins in broad daylight, and strange to relate, but little clue as yet has been discovered, so as to find out the real murderer or murderers.

I shall simply give you the main facts of the case such as I have seen and heard, on paying a visit to the place where these herri-ble murders were committed.

CAPT. DWYER'S HOUSE s situated in about the centre of this Island, nighest mountain on San Juan Island. I shall be particular in describing as briefly as possible all the facts which at present it is proper to make known, and my reason for this is, that I shall not have time to write any other letter for publication at least for the present. Mr. Dwyer's home was one of the neatest and most comfortable little places ever visited on this coast. The house, shed, barn, and everything in and around the lace, were models of taste, while the house was furnished regardless of expense. Every article of furniture had its place, and was kept with such a degree of order, cleanliness and regularity as to convince any lady in the land of good taste, that Mrs. Dwyer was one of the finest housekeepers that could be

found in this or any other country. REMAINS OF CAPT. DWYER AND WIFE FOUND. Mrs. Dwyer's nearest neighbor was Mr. Ferrell, who lives about two miles off; and on Friday morning Mr. Dwyer's cow came to Mr. Terrell's place; Mrs. Terrell told her He was tollowed by the Hon. Mr. Cauchon, husband about the cow being there, when the latter told her to go over and tell Mr. the championship and diamond cue.

They then went up to the house and found Mrs Dwyer lying on her floor close to her bed. coid in death, and bathed in her own blood. The stene was a sickening one, and so much so. that I dare not attempt to give a description report. Langevin submitted memorandum as of it, nor could any man do it justice, who part of the report, giving particulars as to witnessed it as I did. She must have seen the locality. The first measurements have her husband killed, for evidently she had been completed between the eastern terminus been to work making a caby's dress (as she near Lake Nipissing, or Red River Sound, as soon expected to be a young mother), and the most favorable route which has been on seeing or hearing the fatal shot, she Persia arrived at Moscow yesterday, and was ior, to Lake Superior, as also, to the valley of where she had been to work, with a sun shade in Persia. built to Lake Superior ; the distance by the lunded ; watched the murderer until he came tide water in Fracer river, as well as Van- was in the act of falling her gun no doubt English Views on the Indian Quescouver Island via Bute Inlet. A race of wild savages must sooner or later die out of their own accord, and it is the people of the United States are not the less touched with compunction at the sever-

The purchase would include the Land, Buildings, Machinery, Plant, Stock in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disinterested persons.

The Boot and Shoe Department has for the past two years been carried on under the management of Mr. Switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Tannery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business. for the proper development of the business.

The Factory is well arranged, and is fitted with the nost approved Machinery.

The Water Power which is utilized for the conduct of works, is all that could be desired, and could readily be increased to ten times its present power, if at any time required, either for the purposes of this undertaking, or for any other Manufactory. The supply is derived from Springs on the Estate, is very soft in quality, and is lever failing.

Springs on the Estate, is very soit in quanty, and an ever failing.

In fact the business is in thorough working order, and Mr. Switzer's aervices as Manager of the Werks will be retained upon terms favorable to the Company.

The Land consists of 546 acres, known as the Spring Vale Estate, some of which is of excellent quality.

The Timber is of considerable value for Firewood, the situation being favorable for easy delivery.

The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactery.

The goods are specially adapted to the requirements of the Provincial trade, have given general satisfaction, and at a profit successfully compete with the imported article. rricle.

The importations of Boots and Shoes as declared at the Custom House for the year 1871 was about \$100,000, representing a selling value, after adding duties, etc., of say \$150,000. The importation for last year fell diff considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaking.

The Tannery operations only commenced in Augus The Tannery operations only commenced in Angust last, and as the tanning process involves a period of several months, the business of this lepartment is in its infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of Hides, the outturn will be sufficient for the supply of the general demand for harness, mill belting, &c, in addition to the requirements of the Boot Factory.

The Belmont Boot and Shee Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realised.

The value of industrial institutions to the well being of any country is indisputable, and as the hides produced he provisions of "The Qualification and

The value of industrial institutions to the well being of any country is indisputable, and as the hides produced in the I'rovince are now being manufactured into leather, which in turn is made into Boots and Shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious.
